

# *Vault*

## How to Buy VLT

A simple, professional walkthrough for buying Bankroll Vault on Ethereum.

Website → Uniswap

Base app / wallet

Manual contract

**Use the method that matches your experience level.  
Always verify the contract before swapping.**

# Before You Start

VLT is an ERC-20 token on Ethereum. Make sure you are using the Ethereum network.

1

## Use Ethereum

VLT is not on Base chain. It is on Ethereum. You will need ETH for gas fees.

3

## Check contract

0x6b785a0322126826d8226d77e173d75dafb84d11

2

## Verify VLT

Token name should show Bankroll Vault and ticker VLT.

4

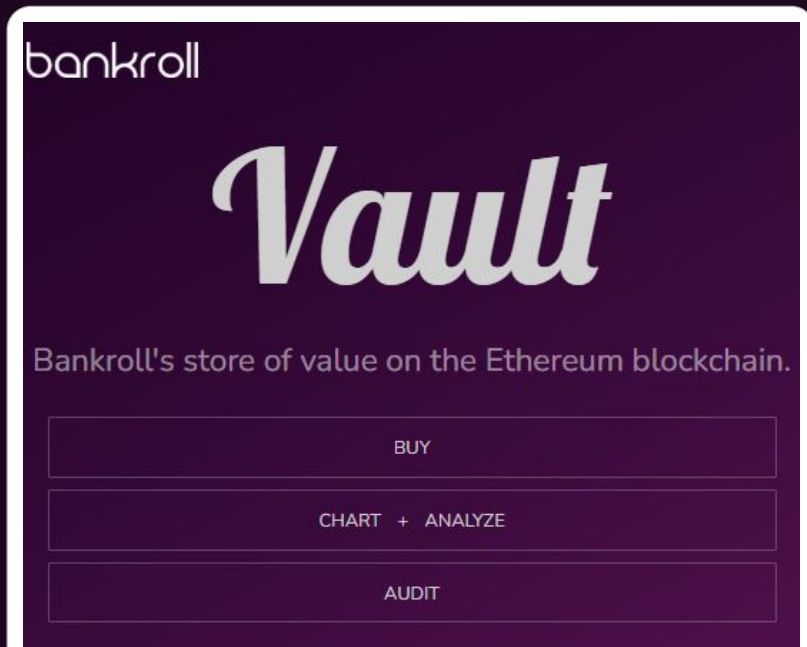

## Know your purchase amount

Check the dollar amount to make sure you are purchasing the amount you intend to purchase

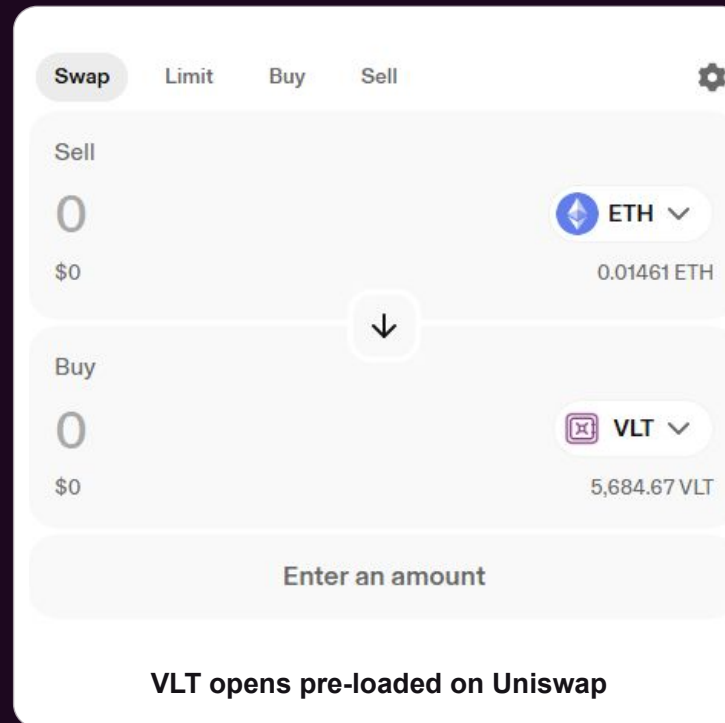

Official website: [bankroll.network](https://bankroll.network) • Official contract: `0x6b785a0322126826d8226d77e173d75dafb84d11`

# Method 1: Buy from the Website

Best for users who already have a wallet funded with ETH.

Click "BUY" at [bankroll.network](https://bankroll.network)

VLT opens pre-loaded on Uniswap

## Steps

- Go to [bankroll.network](https://bankroll.network)
- Click the Buy button
- Enter amount on Uniswap
- Connect wallet
- Confirm the swap

Fastest path: Website → Uniswap → Connect Wallet → Swap

# Method 2: Use the Base App / Wallet

Best for newer users who need to set up a wallet and fund it first.

## Setup + swap flow

- Download the Base app / wallet
- Create your wallet
- Add funds
- Open Swap
- Select Ethereum network
- Search “VLT” or paste contract

Contract is immutable and accessible directly on-chain.

acts

Max supply: 1,800,000 VLT (fixed)

Chain: Ethereum (ERC-20)

Contract: **0x6b785a0322126826d8226d77e173d75DAfb84d11**

Primary liquidity: Uniswap V2

Ecosystem: Bankroll Network

Find the contract on the Vault website

**Important: VLT is on Ethereum — use ETH for gas and verify Bankroll Vault before swapping.**

# Method 3: Paste the Contract Manually

Use this if token search does not show VLT or if you want maximum verification.

[Price & Liquidity - https://app.uniswap.org/explore/tokens/ethereum/0x6b785a...84d11](https://app.uniswap.org/explore/tokens/ethereum/0x6b785a...84d11)

Copy the official contract from bankroll.network

## Manual swap steps

Copy the official contract  
Open your wallet's Swap screen  
Paste into the token field  
Select Bankroll Vault (VLT)  
Enter amount and confirm

**0x6b785a0322126826d8226d77e173d75dafb84d11**

Manual entry helps ensure you are buying the official VLT token, not a fake copy.

# Live Demo Flow

The exact sequence to walk someone through in real time.

1

## Open site

Go to  
bankroll.network

2

## Click Buy

Launch the Uniswap  
page

3

## Connect wallet

Approve wallet  
connection

4

## Enter amount

Choose how much  
ETH to swap

5

## Swap

Confirm transaction  
in wallet

This is for individuals that already have a funded defi-wallet

# Scan to Buy VLT

This QR code opens Uniswap with VLT already pre-loaded.

Direct Uniswap Buy Link

## How to use it

Open your phone camera  
Scan the QR code  
Open the Uniswap link  
Connect your wallet  
Enter amount and swap

<https://app.uniswap.org/swap?outputCurrency=0x6b785a0322126826d8226d77e173d75dafb84d11&use=V2>

The QR code goes directly to Uniswap with VLT selected as the output token.
